This publication has been prepared jointly by Lysander Funds Limited (in respect of the Prospectus Funds, Closed End Fund and ETF (collectively, "Lysander Funds")) and Canso Fund Management Ltd. (in respect of the Offering Memorandum Funds (also referred to as the "Canso Funds")). This publication is not an invitation to invest in the Lysander Fund or the Canso Funds. This publication does not constitute a public offering of sale.

Series C units of Canso Corporate Value Fund and Canso Corporate Bond Fund are available to accredited investors or through another exemption from prospectus requirements and are normally only made available to clients of Canso Investment Counsel Ltd. Performance data for Series C units is shown for comparison purposes only. Series C units have lower management fees and hence, lower management expense ratios ("MERs") than the Series A and Series F units of the same fund. Series A and Series F units are available to eligible investors other than clients of Canso Investment Counsel Ltd. The difference in MERs of the different classes should be taken into account when evaluating the returns of different classes of units.

Commissions, trailing commissions, management fees and expenses all may be associated with investment fund investments. Please read the prospectus and/or offering memorandum before investing. The indicated rates of return are the historical net total returns for the period indicated including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Investment funds are not guaranteed or insured, their values change frequently and past performance may not be repeated.

You will usually pay brokerage fees to your dealer if you purchase or sell units of Canso Credit Income Fund or Lysander-Slater Preferred Share ActiVETF on the Toronto Stock Exchange (TSX). If units are purchased or sold on the TSX, investors may pay more than the current net asset value when buying units of these investment funds and may receive less than the current net asset value when selling them. There are ongoing fees and expenses associated with owning units of the Canso Credit Income Fund.

Investment funds must prepare disclosure documents that contain key information about the funds. You can find more detailed information about the funds in these documents.

Nothing in this publication is intended to constitute legal, tax, securities or investment advice, nor an opinion regarding the appropriateness of any investment, nor a solicitation of any type. This publication has been prepared solely for information purposes. It is made available on an "as is" basis. Lysander Funds Limited and Canso Fund Management Ltd. do not make any warranty or representation regarding the information, and must not be relied on in making an investment decision. Neither Lysander Funds Limited nor Canso Fund Management Ltd. will be responsible for any type of loss incurred by applying any of the information presented.

Lysander-Canso Credit Opportunities Fund is an alternative mutual fund. It has the ability to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds. The specific strategies that differentiate this fund from other types of mutual funds include: increased use of derivatives for non-hedging purposes; increased ability to sell securities short; and the ability to borrow cash to use for investment purposes. While these strategies will be used in accordance with the Fund's investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value. Prior to May 11, 2020, Series F units of Lysander-Canso Credit Opportunities Fund were offered on a private placement basis. The inception date of Series F Units is March 31, 2014. The inception date of Lysander-Canso Credit Opportunities Fund is December 19, 2008. Performance information for the period December 19, 2008 to March 30, 2014 is that of Lysander-Canso Credit Opportunities Fund but with Series F fees and expenses applied. Prior to May 11, 2020, the operating expenses of Lysander-Canso Credit Opportunities Fund would have been higher had Lysander-Canso Credit Opportunities Fund been subject to the additional regulatory requirements applicable to a reporting issuer.

\*Effective July 1, 2020, the Canso Credit Income Fund discontinued paying servicing fees on Class A units of the Fund.
