This document has been prepared jointly by Lysander Funds Limited ("Lysander") (in respect of the Prospectus Funds, Closed End Fund and ETFs (collectively, "Lysander Funds")) and Canso Fund Management Ltd. ("CFM") (in respect of the Offering Memorandum Funds (the "Canso Funds")). This document is not an invitation to invest in the Lysander Funds or the Canso Funds and does not constitute a public offering of sale.

The Canso Funds are only available under prospectus exemptions and other exemptions available to investors who meet certain eligibility or minimum purchase requirements. Currently these exemptions include the accredited investors exemption and the \$150,000 minimum purchase exemption for non-individual investors. Each purchaser of units in a fund may have statutory or contractual right of action. The offering of units of the Canso Funds are made pursuant to an Offering Memorandum and the information contained herein is a summary only and is qualified by the more detailed information in the Offering Memorandum.

Investment funds must prepare disclosure documents that contain key information about the funds. You can find more detailed information about the funds in these documents.

Nothing in this publication is intended to constitute legal, tax, securities or investment advice, nor an opinion regarding the appropriateness of any investment, nor a solicitation of any type. This publication has been prepared solely for information purposes. It is made available on an "as is" basis. Neither Lysander nor CFM make any warranty or representation regarding the information, and the information in this document must not be relied on in making an investment decision. Neither Lysander nor CFM will be responsible for any type of loss incurred as a result of the use of any of the information presented.

Commissions, trailing commissions, management fees and expenses all may be associated with investment funds. Please read the offering document before investing. The indicated rates of return are the historical net total returns for the period indicated including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Investment funds are not guaranteed or insured, their values change frequently and past performance may not be repeated.

You will usually pay brokerage fees to your dealer if you purchase or sell units of Canso Credit Income Fund ("CCIF") on the Toronto Stock Exchange (TSX). If units are purchased or sold on the TSX, investors may pay more than the current net asset value when buying units of these investment funds and may receive less than the current net asset value when selling them. There are ongoing fees and expenses associated with owning units of the CCIF

Performance returns for Class A units of CCIF are based on the net asset values of Class A. Prior to June 25, 2015, CCIF used a fund-on-fund investment strategy whereby CCIF gained exposure to Canso Credit Trust through a forward agreement. On June 25, 2015, as a result of changes to the Income Tax Act (Canada), CCIF changed its investment objectives, ceased to use a fund-on-fund strategy and began investing in securities directly. In addition, prior to July 1, 2020, CCIF paid servicing fees at 0.40% per annum on Class A units. On July 1, 2020, CCIF discontinued the payment of servicing fees. These changes could have affected the performance of CCIF had these changes been in effect throughout the performance measurement period.

The Class A performance numbers shown of CCIF may be different from the performance provided by sources that obtain performance information from the TSX under the symbol PBY.UN, which performance is based on the trading price of the units.

Lysander-Canso Credit Opportunities Fund ("LYZ494") and Lysander-Canso All Country Long/Short Equity Fund ("LYZ531") are alternative mutual funds. They have the ability to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds. The specific strategies that differentiate these funds from other types of mutual funds include: increased use of derivatives for non-hedging purposes; increased ability to sell securities short; and the ability to borrow cash to use for investment purposes. While these strategies will be used in accordance with the fund's investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value. Prior to May 11, 2020, Series F units of LYZ494 were offered on a private placement basis. The inception date of Series F Units is March 31, 2014. The inception date of LYZ494 is December 19, 2008. Performance information of Series F of LYZ 494 for the period December 19, 2008 to March 30, 2014 is that of LYZ494 but with Series F fees and expenses applied. Prior to May 11, 2020, the operating expenses of LYZ494 would have been higher had LYZ494 subject to the additional regulatory requirements applicable to a reporting issuer.

*Effective May 20, 2021, Canso Corporate Bond Fund reduced its annual management fees for Series A and Series F.
