## A Note About Forward Looking Statements

This annual Management Report of Fund Performance includes certain statements that are “forward looking statements”. All statements, other than statements of historical fact, included in this Management Report of Fund Performance that address activities, events or developments that the Fund expects or anticipates will or may occur in the future, including such things as anticipated financial performance, are forward looking statements. The words “may”, “could”, “would”, “should”, “believe”, “plan”, “anticipate”, “expect”, “intend”, “forecast”, “objective” and similar expressions are intended to identify forward looking statements.

These forward looking statements are subject to various risks and uncertainties, including the risks described in the simplified prospectus of the Fund, which could cause actual financial performance and expectations to differ materially from the anticipated performance or other expectations expressed.

Readers are cautioned not to place undue reliance on these forward looking statements. All opinions contained in forward looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

The Fund has no specific intention of updating any forward looking statements whether as a result of new information, future events or otherwise, except as required by securities legislation. Certain research and information about specific holdings in the Fund, including any opinion, is based upon various sources believed to be reliable, but it cannot be guaranteed to be current, accurate or complete. It is for information only, and is subject to change without notice.

## About This Report

This annual Management Report of Fund Performance of Lysander-Canso Corporate Treasury Fund (the “Fund”) contains financial highlights for the year ended December 31, 2024 but does not contain the complete financial statements of the Fund. This report should be read in conjunction with the annual financial statements of the Fund for the year ended December 31, 2024. Lysander Funds Limited (the “Manager”) is the manager of the Fund. You can get a copy of the financial statements at your request, and at no cost, by calling toll-free 1 877 308 6979, by writing to Lysander Funds Limited, 3080 Yonge St., Suite 4000, Toronto, Ontario, M4N 3N1, by visiting our website at [www.lysanderfunds.com](http://www.lysanderfunds.com) or at SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

Unitholders may also contact Lysander Funds Limited using one of these methods to obtain a copy of the Fund’s proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## Investment objective

The Fund’s objective is to provide total returns consisting principally of interest income by investing primarily in liquid short term fixed income and floating rate debt securities of Canadian and foreign issuers.

## Investment Strategies

The Fund’s portfolio manager is Canso Investment Counsel Ltd. (“Portfolio Manager” or “Canso”), a company under common control as the Manager. The Fund’s portfolio will primarily be invested in liquid, high quality fixed income and floating rate debt securities of Canadian and foreign issuers. It also may

invest in debt securities convertible into common stock, and fixed income and floating rate debt securities of governments, government agencies, supranational agencies, companies, trusts and limited partnerships. The Fund will not be leveraged. More details are contained in the Fund’s simplified prospectus.

## Risks

The risks of this Fund remain as discussed in the Fund’s most recent simplified prospectus.

## Results of Operations

During the year, Canso employed its bottom-up process to buy and sell securities for the Fund. The Fund’s positioning and performance is consistent with the Fund’s fundamental investment objective and strategies.

The Fund returns for the year ended December 31, 2024 were 4.92% for Series A, 5.09% for Series F, and 5.27% for Series C.

The net assets of the Fund were approximately \$88.3 million at December 31, 2024 from \$132.8 million at the beginning of the year. There were net redemptions of approximately \$45.5 million during the year.

There were no unusual changes to the components of revenue and expenses of the Fund and there were no unusual events or transactions, economic changes or market conditions that affected performance beyond what would be reasonably expected or as described below.

The Fund did not borrow money during the year except for immaterial short-term cash overdrafts.

## Recent Developments

The U.S. Federal Reserve made two additional quarter-point interest rate cuts during the fourth quarter. The central bank acknowledged that economic activity is strong, and the labour market reasonable. While inflation has come down, it remains higher than their two percent objective. Investors were surprised when the Federal Reserve cautioned about continued aggressive rate cuts into the future. Inflation numbers going forward may be muddled with the President-elect imposing tariffs and deporting unauthorized immigrants. His other election promises of tax cuts and looser regulation may also prove inflationary.

The Bank of Canada reduced its overnight interest rate as economic activity softened due to lower business investment and exports. However, consumer spending and housing activity picked up following lower interest rates. Employment growth has slowed, but wage growth remains elevated. Lower immigration and tariffs from the incoming U.S. administration are expected to weaken our economic growth. The Canadian dollar has depreciated significantly against the U.S. dollar, which may affect consumer sentiment and increase import prices.

During the year, the Fund focused on maintaining its position in short-dated, liquid securities. The Fund established weights in high-quality, short-term corporates including Enbridge Inc., TD Bank, Honda Canada Finance, MetLife Global Funding, and New York Life. The weight in Government of Canada bonds decreased year over year to 72% from 85% due to the addition of the previously mentioned corporate issuers. Also, the Fund repositioned its weighted average term, by switching into longer dated Government of Canada bonds with maturities in 2027 and 2028. The Fund's term-to-maturity was 2.6 years, and duration was 2.5 years at the end of the year.

There have been no changes to the Manager or Portfolio Manager, or change of control of the Manager, or of the Fund. There have been no actual or planned reorganizations, mergers or similar transactions involving the Fund.

Effective June 30, 2024, Paul Fahey resigned as a member of the Fund's Independent Review Committee ("IRC"). Effective July 1, 2024, Donna Peters-Imbrogno was appointed as a member of the IRC.

## Related Party Transactions

The Manager provides or arranges to provide for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including but not limited to, calculating and reporting the net asset value of the Fund and its series, preparing all offering documents, unitholder recordkeeping and other administrative services. The Manager

receives a management fee for these services. The fee is calculated based on a percentage of the net asset value of the Fund as disclosed in the simplified prospectus.

The Fund paid \$216,108 (including HST) in management fees to the Manager for the year ended December 31, 2024 (December 31, 2023 - \$294,787).

The Portfolio Manager is responsible for all investment advice provided to the Fund including providing investment analysis and recommendations, making investment decisions and arranging for the acquisition and disposition of portfolio investments. Portfolio management fees for the Portfolio Manager's services are paid from the management fee.

The Manager paid \$104,025 (including HST) to the Portfolio Manager for the year ended December 31, 2024 (December 31, 2023 - \$143,746).

The Manager relied, or may rely on standing instructions from the IRC in respect of securities traded amongst mutual funds, closed end funds, managed accounts or pooled funds managed by the Manager or an affiliate of the Manager. In such cases the Manager is required to comply with the Manager's written policies and procedures presented to the IRC and provide periodic reports to the IRC in accordance with National Instrument 81-107.

### Notes

\* Series A commenced operations on January 5, 2022.

<sup>1</sup> The information is derived from the Fund's audited annual financial statements. All per unit figures presented are referenced to net assets determined in accordance to IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB").

<sup>2</sup> Net assets and distributions are based on the actual numbers of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

<sup>3</sup> Distributions were paid in cash or reinvested in additional units, or both.

<sup>4</sup> This information is provided at the end of the period shown.

<sup>5</sup> The management expense ratio is based on the total expenses of the period ended and is expressed as an annualized percentage of daily average net asset values during the period.

<sup>6</sup> The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities, excluding short term securities.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
