A Note About Forward Looking Statements

This annual Management Report of Fund Performance includes certain statements that are “forward looking statements”. All statements, other than statements of historical fact, included in this Management Report of Fund Performance that address activities, events or developments that the Fund expects or anticipates will or may occur in the future, including such things as anticipated financial performance, are forward looking statements. The words “may”, “could”, “would”, “should”, “believe”, “plan”, “anticipate”, “expect”, “intend”, “forecast”, “objective” and similar expressions are intended to identify forward looking statements.

These forward looking statements are subject to various risks and uncertainties, including the risks described in the simplified prospectus of the Fund, which could cause actual financial performance and expectations to differ materially from the anticipated performance or other expectations expressed.

Readers are cautioned not to place undue reliance on these forward looking statements. All opinions contained in forward looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

The Fund has no specific intention of updating any forward looking statements whether as a result of new information, future events or otherwise, except as required by securities legislation. Certain research and information about specific holdings in the Fund, including any opinion, is based upon various sources believed to be reliable, but it cannot be guaranteed to be current, accurate or complete. It is for information only, and is subject to change without notice.

About This Report

This annual Management Report of Fund Performance of Lysander-Canso Equity Fund (the “Fund”) contains financial highlights for the year ended December 31, 2024 but does not contain the complete financial statements of the Fund. This report should be read in conjunction with the annual financial statements of the Fund for the year ended December 31, 2024. Lysander Funds Limited (the “Manager”) is the manager of the Fund. You can get a copy of the financial statements at your request, and at no cost, by calling toll-free 1 877 308 6979, by writing to Lysander Funds Limited, 3080 Yonge St., Suite 4000, Toronto, Ontario, M4N 3N1, by visiting our website at www.lysanderfunds.com or at SEDAR+ at www.sedarplus.ca.

Unitholders may also contact Lysander Funds Limited using one of these methods to obtain a copy of the Fund’s proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Investment objective

The Fund’s objective is to provide long-term capital growth by investing primarily in equity securities of companies anywhere in the world.

Investment Strategies

The Fund’s portfolio manager is Canso Investment Counsel Ltd. (“Portfolio Manager” or “Canso”), a company under common control as the Manager. The Fund invests primarily in equity securities of small, medium and large companies. The Fund may also hold cash and fixed income securities. The Fund will not be constrained by geographic or sector considerations and could be

substantially exposed to equity securities of issuers not in developed markets.

Canso tends to take a “bottom up” approach to portfolio construction, focusing on security selection. The Portfolio Manager selects securities based on its independent, proprietary research and valuation of individual companies.

The Fund may invest in debt securities convertible into common stock, fixed income securities of governments, government agencies, supranational agencies, companies, trusts, limited partnerships and other funds including ETFs. The Fund will not be leveraged. The Fund may invest up to 100% of its net assets in foreign securities.

The Fund may hold all or a portion of its assets in cash or cash equivalents or invest in short term bonds or money market instruments in response to adverse market, economic and/or political conditions or for liquidity, defensive or other purposes. As a result, the Fund may not always be fully invested in accordance with its investment objectives. More details are contained in the Fund’s simplified prospectus.

Risks

The risks of this Fund remain as discussed in the Fund's most recent simplified prospectus.

Results of Operations

During the year, Canso employed its bottom-up process to buy and sell securities for the Fund. The Fund’s positioning and performance is consistent with the Fund’s fundamental investment objective and strategies.

Lysander-Canso Equity Fund

Annual Management Report of Fund Performance as at December 31, 2024

The Fund returns for the year ended December 31, 2024 were 21.81% for Series A and 23.27% for Series F.

The net assets of the Fund were approximately \$16.9 million at December 31, 2024 from \$14.9 million at the beginning of the year. There were net subscription of approximately \$216 thousand during the year.

There were no unusual changes to the components of revenue and expenses of the Fund and there were no unusual events or transactions, economic changes or market conditions that affected performance beyond what would be reasonably expected or as described below.

The Fund did not borrow money during the year except for immaterial short-term cash overdrafts.

Recent Developments

The U.S. Federal Reserve made two additional quarter-point interest rate cuts during the fourth quarter. The central bank acknowledged that economic activity is strong, and the labour market reasonable. While inflation has come down, it remains higher than their two percent objective. Investors were surprised when the Federal Reserve cautioned about continued aggressive rate cuts into the future. Inflation numbers going forward may be muddled with the President-elect imposing tariffs and deporting unauthorized immigrants. His other election promises of tax cuts and looser regulation may also prove inflationary.

The Bank of Canada reduced its overnight interest rate as economic activity softened due to lower business investment and exports. However, consumer spending and housing activity picked up following lower interest rates. Employment growth has slowed, but wage growth remains elevated. Lower immigration and tariffs from the incoming U.S. administration are expected to weaken our economic growth. The Canadian dollar has depreciated significantly against the U.S. dollar, which may affect consumer sentiment and increase import prices.

During the year, the Fund added new positions in Starbucks, Delta Airlines, BCE Inc, and Boeing. The Fund also added to its position in Air Canada, Magna, Cineplex, and Hertz. The Fund also bought more Delta Airlines in August and then reduced the position back down in November. Purchases were funded through reductions in AtkinsRealis Group, Kraft Heinz, Apple, Meta Platforms, Bombardier and sell downs of Canada bonds which ended the year at 7.1%.

There have been no changes to the Manager or Portfolio Manager, or change of control of the Manager, or of the Fund.

There have been no actual or planned reorganizations, mergers or similar transactions involving the Fund.

Effective June 30, 2024, Paul Fahey resigned as a member of the Fund's Independent Review Committee ("IRC"). Effective July 1, 2024, Donna Peters-Imbrogno was appointed as a member of the IRC.

Related Party Transactions

The Manager provides or arranges to provide for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including but not limited to, calculating and reporting the net asset value of the Fund and its series, preparing all offering documents, unitholder recordkeeping and other administrative services. The Manager receives a management fee for these services. The fee is calculated based on a percentage of the net asset value of the Fund as disclosed in the simplified prospectus.

The Fund paid \$155,720 (including HST) in management fees to the Manager for the year ended December 31, 2024 (December 31, 2023 - \$131,245).

The Portfolio Manager is responsible for all investment advice provided to the Fund including providing investment analysis and recommendations, making investment decisions and arranging for the acquisition and disposition of portfolio investments. Portfolio management fees for the Portfolio Manager's services are paid from the management fee.

The Manager paid \$72,247 (including HST) to the Portfolio Manager for the year ended December 31, 2024 (December 31, 2023 - \$61,502).

The Manager relied, or may rely on standing instructions from the IRC in respect of securities traded amongst mutual funds, closed end funds, managed accounts or pooled funds managed by the Manager or an affiliate of the Manager. In such cases the Manager is required to comply with the Manager's written policies and procedures presented to the IRC and provide periodic reports to the IRC in accordance with National Instrument 81-107.

Notes

- 1 The information is derived from the Fund's audited annual financial statements. All per unit figures presented are referenced to net assets determined in accordance to IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB").
- 2 Net assets and distributions are based on the actual numbers of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.
- 3 Distributions were paid in cash or reinvested in additional units, or both.
- 4 This information is provided at the end of the period shown.
- 5 The management expense ratio is based on the total expenses of the period ended and is expressed as an annualized percentage of daily average net asset values during the period.
- 6 The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities, excluding short term securities.
- 7 The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

Management Fees

The Manager provides or arranges the provision of all general management and administrative services required by the Fund, and as described in the section “Related Party Transactions” above.

In consideration for such services, the Manager receives a management fee, based on the net asset value of each Series, calculated daily and payable monthly. The Fund pays a management fee at a rate of 1.80% per annum for Series A units and at a rate of 0.80% per annum for Series F units.

Service fees or trailing commissions of a maximum of 1.00% per annum were paid on Series A units to dealers. This comprises approximately 55.6% of the management fee of Series A units.

Year-by-Year Returns

Series A

Past Performance

The Fund commenced operations on September 18, 2013. Accordingly, returns are shown for the relevant period/years as indicated below. Effective January 1, 2020, the management fee for Series A changed from 2.00% to 1.80% and Series F changed from 1.00% to 0.80%. This change could have affected the performance of the Fund had this change been in effect throughout the performance measurement period.

The performance information assumes that any distributions are reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. Past performance does not necessarily indicate how the series will perform in the future.
