<sup>2</sup> Distributions are based on the actual number of units outstanding at the relevant time. Distributions are paid in cash or reinvested in additional units. If the series' net income/capital gains is less than the amounts distributed in the year, the distribution will include a return of capital. In these circumstances, if an investor elects to receive their distributions in cash and not reinvest distributions, it is expected that the value of their investment will decline over time. Distributions are not an indication of performance, rate of return or yield.

On November 1, 2021, the portfolio manager of the fund changed from 18 Asset Management Inc. to Patient Capital Management Inc. and the investment objective of the fund no longer had a Canadian equity securities focus. These changes could have affected the performance of the fund had these changes been in effect throughout the performance measurement period.

Effective January 1, 2020, the management fee for Series A changed from 2.00% to 1.80% and Series F changed from 1.00% to 0.80%. This change could have affected the performance of the Fund had this change been in effect throughout the performance measurement period.
