How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

Lysander Funds Limited has rated the volatility of this Fund as **Low-to-Medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the Risk section of the Fund's simplified prospectus.

No guarantees

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F Units of the Fund have performed over the past 10 years. Returns are after fund expenses have been deducted. These expenses reduce the Series' returns.

On January 1, 2020, the management fee of this Series changed from 1.00% to 0.80%. This change could have affected the performance of the Fund had this change been in effect throughout the performance measurement period.

Year-by-year returns

On November 1, 2021, the portfolio manager of the Fund changed from 18 Asset Management Inc. to Patient Capital Management Inc. and the investment objective of the Fund no longer had a Canadian equity securities focus. These changes could have affected the performance of the Fund had these changes been in effect throughout the performance measurement period.

This chart shows how Series F Units of the Fund performed in each of the last 10 years. The Series dropped in value in 4 of the 10 years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for this Series of the Fund in a 3-month period over the past 10 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period

Who is the fund for?

Investors who:

- plan to hold this investment for the long term
- primarily want to gain equity exposure and
- can handle the volatility associated with equity investments.

A word about tax

In general, you'll have to pay income tax on your share of the Fund's earnings and on taxable capital gains you realize from redeeming your investment. How much you pay depends on the tax rates that apply to you, and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions of income and taxable capital gains are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F Units of the Fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

Sales charges

No sales charges apply when you purchase Series F Units of the Fund. However, investors who purchase this Series through a fee-based program offered at their representative's firm generally pay to that firm an asset-based fee.

Fund expenses

You do not pay these expenses directly. They affect you because they reduce the Fund's returns.

As at December 31, 2024, the expenses of the Series were 1.01% of its average value. This equates to \$10.10 for every \$1,000 invested.
