Lysander-Canso Balanced Fund – Series F

Lysander Funds Limited is the investment fund manager of Lysander-Canso Balanced Fund (the “Fund”). This document is not an invitation to invest in the Fund and does not constitute a public offering of sale. Purchases in the Fund can only be made through an investment professional on the terms in the Fund’s offering document by eligible investors. Each purchaser of units in a fund may have statutory or contractual right of action. Please read the prospectus before investing. Commissions, trailing commissions, management fees and expenses all may be associated with investment funds.

The indicated rates of return are historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Investment funds are not guaranteed or insured, their values change frequently and past performance may not be repeated.

(www.msci.com).

²The management expense ratio (“MER”) is based on the total expenses of the period mentioned, including the Fund’s proportionate share of the MER, if any, of any underlying fund in which the Fund has invested, and is expressed as an annualized percentage of daily average net asset value during the period. If the Fund invests in an underlying fund where Lysander Funds Limited is the investment fund manager, no management fees are payable by the Fund that would duplicate a fee payable by the underlying fund.

³Growth of \$10K chart shown represents a hypothetical investment of the Fund since inception. The chart assumes reinvestment of all distributions and is net of fees. The rate of return shown is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values or return on investments.

⁴A financial ratio calculated as weighted average of current share price divided by forecasted earning per share of all stocks in the portfolio. A fund’s price to earning ratio can act as a gauge of the fund’s investment strategy in the current market climate, and whether it has a value or a growth orientation. Companies with a surge of popularity tend to have higher price-to-earnings ratios, reflecting a growth orientation, while lower price-to-earnings ratios reflect a value orientation.

⁵A financial ratio calculated as weighted average of current share price divided by book value per share of all stocks in the portfolio. It compares how the market values a company to the value on the company’s books. For example a company trading at several times its book value tends to indicate a growth stock where investors believe the book value will rise in the future. Typically a company with a low price-to-book ratio means that investors think that the firm’s assets have been too highly valued on its financial statements.

⁶The weighted average market capitalization of a fund’s equity portfolio gives you a measure of the weighted average size of the companies in which the fund invests. Market capitalization is calculated by multiplying the number of a company’s shares outstanding by its price per share.

⁸Fixed income securities unrated by external agencies are assigned an internal Canso rating.

⁹Distributions are based on the actual number of units outstanding at the relevant time. Distributions are paid in cash or reinvested in additional units of the Fund. If the Fund's series' net income/capital gains is less than the amounts distributed in the year, the distribution will include a return of capital. In these circumstances, if an investor elects to receive their distributions in cash and not reinvest such distributions, it is expected that the value of their investment will decline over time. Distributions are not an indication of performance, rate of return or yield.

Lysander-Canso Balanced Fund was awarded the 2025 Fundata FundGrade A+® Award in the Canadian Neutral Balanced Category, out of 60 funds. The FundGrade start date was 12/31/2015 and FundGrade end date was 12/31/2025. Performance for the fund (Series A) for the period ended February 28, 2026 was 11.9% (1 year), 10.9% (3 years), 11.5% (5 years) and 10.3% (10 years).

FundGrade A+® is used with permission from Fundata Canada Inc., all rights reserved. The annual FundGrade A+® Awards are presented by Fundata Canada Inc. to recognize the “best of the best” among Canadian investment funds. The FundGrade A+® calculation is supplemental to the monthly FundGrade ratings and is calculated at the end of each calendar year. The FundGrade rating system evaluates funds based on their risk-adjusted performance, measured by Sharpe Ratio, Sortino Ratio, and Information Ratio. The score for each ratio is calculated individually, covering all time periods from 2 to 10 years. The scores are then weighted equally in calculating a monthly FundGrade. The top 10% of funds earn an A Grade; the next 20% of funds earn a B Grade; the next 40% of funds earn a C Grade; the next 20% of funds receive a D Grade; and the lowest 10% of funds receive an E Grade. To be eligible, a fund must have received a FundGrade rating every month in the previous year. The FundGrade A+® uses a GPA-style calculation, where each monthly FundGrade from “A” to “E” receives a score from 4 to 0, respectively. A fund's average score for the year determines its GPA. Any fund with a GPA of 3.5 or greater is awarded a FundGrade A+® Award. For more information, see www.FundGradeAwards.com. Although Fundata makes every effort to ensure the accuracy and reliability of the data contained herein, the accuracy is not guaranteed by Fundata. Note: The FundGrade ratings for each fund are subject to change every month.
