Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Investment funds are not guaranteed, their values change frequently, and past performance may not be repeated. Distributions are based on the actual number of units outstanding at the relevant time. Distributions are paid in cash. If the Fund's series' net income/capital gains is less than the amounts distributed in the year, the distribution will include a return of capital. In these circumstances, if an investor elects to receive their distributions in cash, it is expected that the value of their investment will decline over time. Distributions are not an indication of performance, rate of return or yield.
