Lysander-Canso Short Term and Floating Rate Fund – Series F

Lysander Funds Limited is the investment fund manager of Lysander-Canso Short Term and Floating Rate Fund (the “Fund”). This document is not an invitation to invest in the Fund and does not constitute a public offering of sale. Purchases in the Fund can only be made through an investment professional on the terms in the Fund’s offering document by eligible investors. Each purchaser of units in a fund may have statutory or contractual right of action. Please read the prospectus before investing. Commissions, trailing commissions, management fees and expenses all may be associated with investment funds.

The indicated rates of return are historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Investment funds are not guaranteed or insured, their values change frequently and past performance may not be repeated.

The Licensor Parties make no warranty or representation whatsoever, expressly or impliedly, either as to the results to be obtained from the use of the FTSE Canada Indices (the “Indices”) and/or the figure at which the said Indices stand at any particular time on any particular day or otherwise. The Indices are compiled and calculated by FTDCM and all copyright in the Indices values and constituent lists vests in FTDCM. ²The management expense ratio (“MER”) is based on the total expenses of the period mentioned, including the Fund’s proportionate share of the MER, if any, of any underlying fund in which the Fund has invested, and is expressed as an annualized percentage of daily average net asset value during the period. If the Fund invests in an underlying fund where Lysander Funds Limited is the investment fund manager, no management fees are payable by the Fund that would duplicate a fee payable by the underlying fund.

³Fixed income securities unrated by external agencies are assigned an internal Canso rating.

⁴Distributions are based on the actual number of units outstanding at the relevant time. Distributions are paid in cash or reinvested in additional units of the Fund. If the Fund’s series’ net income/capital gains is less than the amounts distributed in the year, the distribution will include a return of capital. In these circumstances, if an investor elects to receive their distributions in cash and not reinvest such distributions, it is expected that the value of their investment will decline over time. Distributions are not an indication of performance, rate of return or yield.

Effective January 1, 2025, the management fee for Series A changed from 1.05% to 0.95% and Series F changed from 0.55% to 0.45%. This change could have affected the performance of the Fund had this change been in effect throughout the performance measurement period.
