A Note About Forward Looking Statements

This semi-annual Management Report of Fund Performance includes certain statements that are “forward looking statements”. All statements, other than statements of historical fact, included in this Management Report of Fund Performance that address activities, events or developments that the Fund expects or anticipates will or may occur in the future, including such things as anticipated financial performance, are forward looking statements. The words “may”, “could”, “would”, “should”, “believe”, “plan”, “anticipate”, “expect”, “intend”, “forecast”, “objective” and similar expressions are intended to identify forward looking statements.

These forward looking statements are subject to various risks and uncertainties, including the risks described in the simplified prospectus of the Fund, which could cause actual financial performance and expectations to differ materially from the anticipated performance or other expectations expressed. Readers are cautioned not to place undue reliance on these forward looking statements. All opinions contained in forward looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

The Fund has no specific intention of updating any forward looking statements whether as a result of new information, future events or otherwise, except as required by securities legislation. Certain research and information about specific holdings in the Fund, including any opinion, is based upon various sources believed to be reliable, but it cannot be guaranteed to be current, accurate or complete. It is for information only, and is subject to change without notice.

Investment Objective

The Fund’s objective is to achieve long-term total returns consisting of both income and capital gains by investing primarily in a portfolio of Canadian fixed income securities and equity securities.

Investment Strategies

The Fund’s portfolio manager is Lysander Funds Limited. (“Portfolio Manager” or “Lysander”). The Fund’s portfolio will primarily be invested in a diversified portfolio of Canadian equity securities and bonds. More details are contained in the Fund’s simplified prospectus.

Risks

The risks of this Fund remain as discussed in the Fund’s most recent simplified prospectus.

Results of Operations

During the period, Lysander employed a top-down approach to invest in funds that invest primarily in Canadian securities. The Fund’s positioning and performance is consistent with the Fund’s fundamental investment objective and strategies.

The Fund returns for the period ended June 30, 2026 were 6.37% for Series A and 6.86% for Series F.

The blended benchmark of 50% S&P/TSX Composite Total Return Index and 50% FTSE Canada All Corporate Bond Index returned 6.86% over the same period.

The net assets of the Fund were approximately \$2.9 million at June 30, 2026 from \$2.7 million at the beginning of the period. There were net subscriptions of \$11.7 thousand during the period.

There were no unusual changes to the components of revenue and expenses of the Fund and there were no unusual events or transactions, economic changes or market conditions that affected performance beyond what would be reasonably expected or as described below.

The Fund did not borrow money during the period except for immaterial short-term cash overdrafts.

Recent Developments

During the period, global markets were defined by a striking disconnect between resilient risk assets and a volatile macroeconomic backdrop. Despite geopolitical tensions in the Middle East, persistent inflation, and a shifting narrative toward higher rates, both credit and equity markets remained remarkably resilient, as demonstrated by tight credit spreads, massive debt issuance, and blockbuster IPOs. Historically tight credit spreads appear increasingly at odds with interest rate volatility, persistent inflation, and growing late-cycle pressures. While fundamentals remain strong across select industries, others are beginning to weaken as economic headwinds build.

Throughout the period, the Bank of Canada (the "BoC") held overnight interest rates at 2.25%. The BoC has continuously highlighted weak economic activity in Canada and ongoing uncertainty surrounding U.S. trade policy. The BoC has also clearly signalled that it will remain on hold for an extended period as monetary policy passes the baton to fiscal policy.

During the period, the Federal Reserve (the "Fed") held the upper bound of the Fed Funds Target Rate at a level of 3.75%. Newly appointed Fed Chair Kevin Warsh reaffirmed the Fed's dual mandate and emphasized the committee's goal of restoring price stability. Markets interpreted the messaging as hawkish, with additional rate hikes in the second half of the year now fully reflected in U.S. swap market pricing.

The Fund remains defensively positioned with approximately 50% in fixed income and 50% in equities. On a look-through basis, the Fund continues to hold a sizeable allocation to liquid government securities, reflecting elevated credit and interest rate risks. These higher-quality, liquid positions provide flexibility to take advantage of future opportunities in the credit or equity market at more favourable valuations. Within equities, the Fund remains overweight to Canadian equities as valuations appear attractive relative to U.S. and global markets.

There have been no changes to the Manager or Portfolio Manager, or change of control of the Manager, or of the Fund. There have been no actual or planned reorganizations, mergers or similar transactions involving the Fund.

There were no changes to the membership of the Fund's Independent Review Committee ("IRC").

Related Party Transactions

The Manager provides or arranges to provide for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including but not limited to, calculating and reporting the net asset value of the Fund and its series, preparing all offering documents, unitholder recordkeeping and other administrative services. The Manager receives a management fee for these services. The fee is calculated based on a percentage of the net asset value of the Fund as disclosed in the simplified prospectus.

The Fund paid \$12,361 (including HST) in management fees to the Manager for the period ended June 30, 2026 (June 30, 2025 - \$118).

The Portfolio Manager is responsible for all investment advice provided to the Fund including providing investment analysis and recommendations, making investment decisions and arranging for the acquisition and disposition of portfolio investments. Fees for providing these services are included in the management fee. Portfolio management fees for the Portfolio Manager's services are paid from the management fee.

The Independent Review Committee ("IRC") continues to oversee transactions involving securities traded among mutual funds, closed-end funds, managed accounts, or pooled funds managed by the Manager or its affiliates. In such cases, the Manager must adhere to its written policies and procedures presented to the IRC and provide periodic reporting in accordance with National Instrument 81-107.

Management Fees

The Manager provides or arranges the provision of all general management and administrative services required by the Fund, and as described in the section "Related Party Transactions" above.

In consideration for such services, the Manager receives a monthly management fee, based on the net asset value of each Series, calculated daily and payable monthly. The Fund pays a management fee at a rate of 1.50% per annum for Series A units and at a rate of 0.75% per annum for Series F units.

Service fees or trailing commissions of a maximum of 0.75% per annum are paid on Series A units to dealers. This comprises approximately 50% of the management fee of Series A units.

1) The information is derived from the Fund's unaudited semi-annual and/or audited annual financial statements. All per unit figures presented are referenced to net assets determined in accordance to IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB").

2) Net assets and distributions are based on the actual numbers of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

3) Distributions were paid in cash or reinvested in additional units, or both.

4) This information is provided at the end of the period shown.

5) The management expense ratio ("MER") is based on the total expenses of the period ended, including the Fund's proportionate share of the MER, if any, of any underlying fund in which the Fund has invested, and is expressed as an annualized percentage of daily average net asset value during the period.

6) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities, excluding short term securities.

7) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. Where the Fund invests in any underlying fund, the TER includes the Fund's proportionate share of the commissions of any underlying fund in which the Fund invested.
