A Note About Forward Looking Statements

This semi-annual Management Report of Fund Performance includes certain statements that are “forward looking statements”. All statements, other than statements of historical fact, included in this Management Report of Fund Performance that address activities, events or developments that the Fund expects or anticipates will or may occur in the future, including such things as anticipated financial performance, are forward looking statements. The words “may”, “could”, “would”, “should”, “believe”, “plan”, “anticipate”, “expect”, “intend”, “forecast”, “objective” and similar expressions are intended to identify forward looking statements.

These forward looking statements are subject to various risks and uncertainties, including the risks described in the simplified prospectus of the Fund, which could cause actual financial performance and expectations to differ materially from the anticipated performance or other expectations expressed. Readers are cautioned not to place undue reliance on these forward looking statements. All opinions contained in forward looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

The Fund has no specific intention of updating any forward looking statements whether as a result of new information, future events or otherwise, except as required by securities legislation. Certain research and information about specific holdings in the Fund, including any opinion, is based upon various sources believed to be reliable, but it cannot be guaranteed to be current, accurate or complete. It is for information only, and is subject to change without notice.

Investment Objective

The Fund’s objective is to provide above average, long-term total returns consisting of both income and capital gains by investing primarily in a portfolio of fixed income securities and equities.

Investment Strategies

The Fund’s portfolio manager is Canso Investment Counsel Ltd. (“Portfolio Manager” or “Canso”), a company under common control as the Manager. The Fund’s fixed income holdings are not restricted by credit ratings. Canso engages in opportunistic buying and selling of securities using a contrarian approach. Canso believes that it is able to access market segments and exploit inefficiencies in the corporate bond market that are not available or apparent to most investors, due to its proprietary credit analysis and trading expertise. Canso also applies its credit analysis expertise to the selection of equity securities for the Fund.

Canso tends to take a “bottom up” approach to portfolio construction, focusing on security selection. The exposure to credit risk in the Fund will depend on the phase of the credit cycle and the bottom up valuation of individual securities. In the selection of equity securities for the Fund, Canso focuses on identifying companies trading below what Canso judges to be their intrinsic value. Some of the Fund’s portfolio positions will, under normal circumstances, be invested in securities of foreign issuers. It also may invest in debt securities convertible into common stock, and convertible and non-convertible preferred stock, and fixed income securities of governments, government agencies, supranational agencies and companies.

The Fund may hold all or a portion of its assets in cash or cash equivalents or invest in short term bonds or money market instruments in response to adverse market, economic and/or political conditions or for liquidity, defensive or other purposes. As a result, the Fund may not always be fully invested in accordance with its investment objectives. The Fund may invest up to 100% of its net assets in foreign securities. More details are contained in the Fund’s simplified prospectus.

Risks

The risks of this Fund remain as discussed in the Fund’s most recent simplified prospectus.

Results of Operations

During the year, Canso employed its bottom-up process to buy and sell securities for the Fund. The Fund’s positioning and performance is consistent with the Fund’s fundamental investment objective and strategies.

The Fund returns for the period ended June 30, 2026 were 9.34% for Series A and 9.81% for Series F.

The net assets of the Fund were approximately \$286.4 million at June 30, 2026 from \$215.8 million at the beginning of the period. There were net subscriptions of \$51.7 million during the period.

Lysander-Canso Balanced Fund

Semi-Annual Management Report of Fund Performance as at June 30, 2026

There were no unusual changes to the components of revenue and expenses of the Fund and there were no unusual events or transactions, economic changes or market conditions that affected performance beyond what would be reasonably expected or as described below.

The Fund did not borrow money during the period except for immaterial short-term cash overdrafts.

Recent Developments

During the period, global markets were defined by a striking disconnect between resilient risk assets and a volatile macroeconomic backdrop. Despite geopolitical tensions in the Middle East, persistent inflation, and a shifting narrative toward higher rates, both credit and equity markets remained remarkably resilient, as demonstrated by tight credit spreads, massive debt issuance, and blockbuster IPOs. Historically tight credit spreads appear increasingly at odds with interest rate volatility, persistent inflation, and growing late-cycle pressures. While fundamentals remain strong across select industries, others are beginning to weaken as economic headwinds build.

Throughout the period, the Bank of Canada (the "BoC") held overnight interest rates at 2.25%. The BoC has continuously highlighted weak economic activity in Canada and ongoing uncertainty surrounding U.S. trade policy. The BoC has also clearly signalled that it will remain on hold for an extended period as monetary policy passes the baton to fiscal policy.

During the period, the Federal Reserve (the "Fed") held the upper bound of the Fed Funds Target Rate at a level of 3.75%. Newly appointed Fed Chair Kevin Warsh reaffirmed the Fed's dual mandate and emphasized the committee's goal of restoring price stability. Markets interpreted the messaging as hawkish, with additional rate hikes in the second half of the year now fully reflected in U.S. swap market pricing.

The Fund maintains a sizeable position in liquid government securities as both credit and equity market valuations remain elevated. The weight to equities in the portfolio was at 40% of the Fund as it remains underweight equity securities. The weight to Government securities in the portfolio stands at 21%, while the weight to corporate credit securities in the portfolio with ratings of AAA/AA was at 40% at the end of the period. The higher quality, liquid positions will allow the Fund to take advantage of future opportunities in the markets at more favourable valuations. The weight to securities in the portfolio with ratings of BB or below remains at 2%, the relatively low weighting is indicative of the lack of opportunities in the lower quality segment of the credit markets by virtue of tight credit spreads.

During the period, the Fund added to equity positions in Canfor Corp, Ubisoft Entertainment, Unilever PLC, Air Canada, Bird Construction, Cenovus, Intel Corp., Match Group Inc., and MDA Space. Purchases were funded through reductions in AtkinRealis, BCE Inc., Boeing Co., and Commerzbank AG, as well as select sub-investment-grade securities and Government of Canada bonds. Within the fixed income component of the Fund it continues to be positioned conservatively. The Fund sold down positions in select sub-investment grade bonds including Hertz and purchased various high quality investment grade credits from issuers such as 407 International Inc. and New York Life Global Funding.

The top three securities that contributed to the Fund's performance over the period were: Bird Construction Inc., MDA Space Ltd., Intel Corp.

There have been no changes to the Manager or Portfolio Manager, or change of control of the Manager, or of the Fund. There have been no actual or planned reorganizations, mergers or similar transactions involving the Fund.

There were no changes to the membership of the Fund's Independent Review Committee ("IRC").

Related Party Transactions

The Manager provides or arranges to provide for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including but not limited to, calculating and reporting the net asset value of the Fund and its series, preparing all offering documents, unitholder recordkeeping and other administrative services. The Manager receives a management fee for these services. The fee is calculated based on a percentage of the net asset value of the Fund as disclosed in the simplified prospectus.

The Fund paid \$1,308,788 (including HST) in management fees to the Manager for the period ended June 30, 2026 (June 30, 2025 - \$779,280).

The Portfolio Manager is responsible for all investment advice provided to the Fund including providing investment analysis and recommendations, making investment decisions and arranging for the acquisition and disposition of portfolio investments. Fees for providing these services are included in the management fee. Portfolio management fees for the Portfolio Manager's services are paid from the management fee.

The Manager paid \$521,438 (including HST) to the Portfolio Manager for the period ended June 30, 2026 (June 30, 2025 - \$318,001).

Lysander-Canso Balanced Fund

Semi-Annual Management Report of Fund Performance as at June 30, 2026

The Independent Review Committee ("IRC") continues to oversee transactions involving securities traded among mutual funds, closed end funds, managed accounts, or pooled funds managed by the Manager or its affiliates. In such cases, the Manager must adhere to its written policies and procedures presented to the IRC and provide periodic reporting in accordance with National Instrument 81-107.

Management Fees

The Manager provides or arranges the provision of all general management and administrative services required by the Fund, and as described in the section "Related Party Transactions" above.

In consideration for such services, the Manager receives a management fee, based on the net asset value of each Series, calculated daily and payable monthly. The Fund pays a management fee at a rate of 1.50% per annum for Series A units and at a rate of 0.75% per annum for Series F units.

Service fees or trailing commissions of a maximum of 0.75% per annum are paid on Series A units to dealers. This comprises 50% of the management fee of Series A units, exclusive of applicable taxes.

- 1) The information is derived from the Fund's unaudited semi-annual and/or audited annual financial statements. All per unit figures presented are referenced to net assets determined in accordance to IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB").
- 2) Net assets and distributions are based on the actual numbers of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.
- 3) Distributions were paid in cash or reinvested in additional units, or both.

Series F

Period ended	June 30, 2026	December 31, 2025	December 31, 2024	December 31, 2023	December 31, 2022	December 31, 2021
Ratios and supplemental data						
Net asset value ⁴	\$ 211,144,475	\$ 162,071,881	\$ 108,812,995	\$ 67,818,755	\$ 38,793,266	\$ 31,761,195
Units outstanding	7,859,309	6,504,978	4,583,326	3,224,978	2,002,016	1,540,426
Management expense ratio ⁵	0.92%	0.91%	0.93%	0.93%	0.97%	0.98%
Management expense ratio before waivers or absorption	0.92%	0.91%	0.93%	0.93%	0.97%	0.98%
Portfolio turnover rate ⁶	14.1%	39.1%	44.3%	37.6%	46.4%	26.9%
Trading expense ratio ⁷	0.01%	0.01%	0.01%	0.02%	0.06%	0.07%
Net asset value per unit, end of period	26.87	24.92	23.74	21.03	19.38	20.62

4) This information is provided at the end of the period shown.

5) The management expense ratio ("MER") is based on the total expenses of the period ended, including the Fund's proportionate share of the MER, if any, of any underlying fund in which the Fund has invested, and is expressed as an annualized percentage of daily average net asset value during the period.

6) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is calculated based on the lesser of purchases or sales of securities divided by the weighted average market value of portfolio securities, excluding short term securities.

7) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. Where the Fund invests in any underlying fund, the TER includes the Fund's proportionate share of the commissions of any underlying fund in which the Fund invested.

Lysander-Canso Balanced Fund

Semi-Annual Management Report of Fund Performance as at June 30, 2026

Past Performance

The Fund became a reporting issuer on December 23, 2011. The commencement date of being distributed under a prospectus for Series A was December 28, 2011 and for Series F was December 23, 2011. Accordingly, returns are shown for the relevant period/years as indicated below.

The performance information assumes that any distributions are reinvested in additional securities of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. Past performance does not necessarily indicate how the series will perform in the future.
